Education forms and transforms. If it doesn't, then it's not education at all. Regrettably education today focuses on imparting processed knowledge rather than giving life-skills. It is overloaded with theories and concepts, abstracts and ideas without much practical knowledge and experience. The students have no option but to gulp the abstract contents without grasping the essentials. They are to swim or drown. Will I be wrong to say that education today is off the tangent, that it doesn't touch the skin? Can teachers and parents do something positive in this regard?

Education and civilization go hand in hand. The educated ones advance in civilization. They approach life proactively. They build and not destroy. They exhibit universal outlook and not exclusivity. People of this sort are desired today. Let's remember that the future ones are in our class rooms. They are in our hands. They look forward for a world of possibilities to broaden their minds, expand their hearts, widen their perspectives, stretch their imaginations and amplify their dreams. They are on exploration of paths to cross narrow walls and build bridges. They are in search for lofty ideals guarded by integrity. They are waiting to be moulded by character and virtue, the essence of true education and civilization.

Mahatma Gandhi a venerable soul lived unto these principles. He upheld truth, integrity, honesty and universality. I wish he gets born again today in India and revolutionizes education. At this juncture I am reminded of his immortal lines, "Let the first act of every morning be to make the following resolve for the day:

- I shall not fear anyone on earth.
- I shall fear only God.
- I shall not bear ill will toward anyone.
- I shall not submit to injustice from anyone.
- I shall conquer untruth by truth. And in resisting untruth, I shall put up with all suffering."

This is the kernel of education, the core of civilization. What is needed today is a humanized education which does not simply ask the teacher to teach and students to learn, but urges everyone to live, study and act in accordance with the reasons of fraternal humanism. It aims at offering places for meeting and discussion to create valid educational projects. It intends to pull down the walls of exclusivity and promotes the richness and diversity of individual talents and extends the classroom to generate solidarity, sharing and communion (Cf. *Educating to Fraternal Humanism*, No 20).

Shall we embark on this mission as we go along during the academic year?

## A Drop in the Ocean

Nature places the rule of giving joy to human heart and healing influence on sorrowful hearts. When the disaster struck our neighbouring State Kerala and Kodagu District in Karnataka in the form of storms, floods and landslides, we were moved with compassion to lend a helping hand. It was not only the elders that came forward but also the student community to help the helpless saying, "We are with you." There was an overwhelming response from both the students and parents contributing a drop in the ocean; thus making a difference in the lives of those who were distressed due to floods. The Headmistress personally took initiatives and supervised the task of the bounty collected and handed over the whole truck of goods to the volunteers who set off to Kerala and Kodagu District to render relief service. Mother Theresa once said "It is not how much we give but how

much love we put into giving." Truly our little donors put lots of love into what they gave and gave it generously without counting the cost. May God reward all our parents and students for their good will.

## Saving Water – “The Elixir of Life”

Waste is the most precious resource ironically turning non-renewable form renewable. Students are the best agents of change. Hence the students of VII-D took up the challenge to save and reduce the wastage of water through a project based on the lesson 'Waste Water Story'. They suggested different ways of

conserving water in daily life like collecting water from the water purifier and using it for the other household works. A group of students living in the proximity carried a rally in the street to spread awareness. They were opposed, ridiculed, snubbed and accused of wasting time but it did not deter their perseverance and courage in creating an awareness of saving water.

Through this project they have realized the importance of saving water and they also learnt to stand for the right cause and never to give up.

## Profile of a Bethany Teacher

“Let your light shine- whether you are a candle in a corner or a Light House on a hill”.

The true mission of a great teacher is to create better learning conditions through improving quality of education. By the grace of the Almighty and the blessings of the Father Founder and his ultimate vision, we the Bethanites have enormous potentials to build on these strengths and rise to the even greater heights of distinctions and service to human kind.

On 2 July 2018 at the reopening, one such orientation was organized by Sr Ophilia Lobo, Principal St Theresa's Convent School, Karnal wherein Sr Mariette the Secretary of BES was the resource person; she inspired every one through her exuberant, cheerful and effective communication skills. The topic of the day was 'What it means to be a BES Educator'; she brought out the purpose in a meaningful manner and motivated everyone to provide education to all beyond caste, creed, language and religion. Her comparison of Mahatma Gandhi with that of Father Founder was well expounded.

Teachers were also apprised of the Constitution of Bethany written in 1932. Sr Mariette emphasized upon the important articles of the Constitution. The practicing of the first Core Value 'God Experience' caught attention of everyone. Teachers were asked to take up new projects in class to promote education for 'Fullness of Life'. The seminar's concluding part left indelible impressions on heart and mind of everyone.

## Demonstration of Scientific Temper

There was a great excitement in Bethany School Campus as budding scientists started displaying the work of their hands and getting ready for the prolific Science Event on 21 August 2018. The “Science Exhibition” was inaugurated by Rev. Sr Rosia BS, the Principal of the school. A good number of students and teachers from various schools and parents of our students witnessed this mega event.

Today's 'Z' generation is intelligent. The teachers need to awaken among students scientific temper and bring out the scientific potentials concealed within. Bethany school decided to move in this direction and let the students explore and exhibit their hidden talents. The parents particularly felt proud, seeing the development of their children and exclaimed

that the great future scientists and engineers are found in the campus.

It was encouraging to see our students from Nursery to class X bringing the best out of them. It was an incredible day in the history of the school.

## ದೈವಾನುಭವದ ಒಂದು ದಿನ

ರೋನಾಲ್ಡ ಎಂಬ ಅನಾಥ ಮಗುವಿನ ಸತ್ಯಕಥೆಯನ್ನು ಹೇಳುವುದರ ಮೂಲಕ ನಾವು ನಮ್ಮನ್ನು ಸಂಪೂರ್ಣವಾಗಿ ದೇವರಿಗೆ ಸಮರ್ಪಿಸಿದಾಗ ಮಾತ್ರ ದೇವರ ರಕ್ಷಣೆ ನಮಗೆ ಸಿಗಲು ಸಾಧ್ಯ ಎಂಬುದನ್ನು ಎಲ್ಲರಿಗೂ ಮನದಟ್ಟು ಮಾಡಿಸಿದರು. ಮಕ್ಕಳು ಶಿಕ್ಷಣದಲ್ಲಿ ಚೆನ್ನಾಗಿ ಆಸಕ್ತಿ ವಹಿಸಿ ಕಲಿಯಬೇಕು ಎಂಬ ವಿಷಯವನ್ನು ಬೈಬಲ್‌ನಲ್ಲಿರುವ ಕೆಲವು ವಾಕ್ಯಗಳ ಮೂಲಕ ಮಕ್ಕಳಿಗೆ ತಿಳಿಸಿ ಹೇಳುವುದರ ಜೊತೆಗೆ ಕ್ಷಮಿಸು, ಪ್ರೀತಿಸು, ಪ್ರಾರ್ಥಿಸು ಎಂಬ ಮೌಲ್ಯಗಳನ್ನು ಮಕ್ಕಳು ತಮ್ಮ ಜೀವನದಲ್ಲಿ ಅಳವಡಿಸಿಕೊಳ್ಳಬೇಕೆಂದು ವಿವರಿಸಿದರು.

## It's time to think in English!

"Today a reader, tomorrow a leader" – Margaret Fuller

The two days English workshop was organized in Bethany School, Guwahati on 31 August and 1 September 2018 for the students of classes V to X. Mrs Diya Chatterjee from Kolkata was the resource person. The objective of the workshop was to draw the attention of students and make them realize how important it is to master English language. The group activities and individual tests kept them smarter in their thinking and expression.

To be fluent in English is to feel at home with everyone wherever one goes because the number of people who speak English are on the increase.

So it's a mandate to think in English and express in English. Bethany school made a humble attempt in this regard and hopes for the best outcome of this stormy English Seminar.

## We owe our Thanks

“If you can learn that is good but if you can teach that is life-changing.” Bidding farewell has always taught words never prove to be enough. Saying goodbye is never simple to a teacher, who is so special. We had a wonderful farewell to the two most important people who served this institution (BCS) for 34 and 35 years. They are the true examples of dedication and devotion who are none other than respected Mrs Anita Daud and Mrs Annamma Ouseph. The two ladies were the true replica of love, care, affection, hard work, determination, patience, positivity and much more. They have

successfully served the institution and completed their terms of service. Students out of their love and reverence organized a small function in which they performed dances, songs and recited poems for both of them.

## Mgr Raymond FC Mascarenhas-A Model for the Youth

Msgr Raymond Francis Camillus Mascarenhas, the founder of the Congregation of the Sisters of the Little Flower of Bethany, was a devout priest. He was born on 23 January 1875 to Lazarus Mascarenhas and Joanna Castelino. Msgr Raymond is a great model to the youth. His struggles from childhood to death are a great inspiration to us.

We learn from the story of Msgr Raymond, that he was pious, faithful and diligent in the practice of virtues.

Msgr Raymond was a man of sharp memory and eloquence of speech. He was a dynamic preacher both in English and in Konkani. He lived a good priestly life and advised young men and women to do what was right.

Msgr Raymond had great compassion for the poor and the marginalized. He was ready to spend his life for the poor and the neglected. Today, do we ever

find young men who will sacrifice their lives for the service of the poor?

Msgr Raymond was a dedicated educationist who imparted Christian principles in schools and parishes. He preached retreats to priests, religious and lay people. He made a great impact on the listeners by his homilies.

Msgr Raymond laid great emphasis on education of poor girls. He believed in the saying "If a girl is educated, then the whole family is educated." We read in newspapers of today the fate of the girl child. The way she is ridiculed and harassed in the society! Msgr Raymond always respected women. That is why he started the Congregation of the Sisters of the Little Flower of Bethany in order to educate the girls and help them gain respect in the society.

His hard work brought forth schools such as St Sebastian School and St Margaret Mary School at Bendur, and St Joseph School at Kankanady, Mangalore. With hardly any money in his hand he was able to erect the parish church of St Sebastian, Bendur. If we work hard the way Msgr Raymond worked, we too can enjoy the fruit of our hard labour.

Msgr Raymond is considered a man of great courage. Although he had a lot of sufferings, trials and misunderstandings from various quarters, he did not lose hope. He had great faith in Jesus and Mother Mary and faced his trials courageously.

Msgr Raymond left for his eternal home peacefully on 23 December 1960, leaving behind footprints of hard work, dedication, sacrifice, courage, determination and encouragement. He is a great inspiration to all of us. We, the youth should follow the path Msgr Raymond taught us through his life.

May the Lord grant to his servant, the honours of the altar, for the greater glory of God.
